## **READ THESE INSTRUCTIONS FIRST**

Make sure that your **Centre number**, **candidate number** and **name** are written at the top of this page and are clearly visible on every printout, before it is sent to the printer. Printouts with handwritten information will **not** be marked.

DO NOT WRITE IN ANY BARCODES.

Carry out every instruction in each step.

Steps are numbered on the left hand side of the page. On the right hand side of the page for each step, you will find a box which you can tick  $(\checkmark)$  when you have completed it; this will help you track your progress through the test.

At the end of the exam put this Question Paper and all your printouts into the Assessment Record Folder.

If you have produced rough copies of printouts, these should be neatly crossed through to indicate that they are **not** the copy to be marked.

thei	The Maldives Tourist Board requires a currency calculator for their employees. This will allow them to calculate prices in different currencies from the Maldivian rufiyaa. Use the most efficient methods to create this spreadsheet.				
23	Using a suitable software package, load the file j1531money.csv				
	Examine the contents of this file and save it as a spreadsheet.				
24	Insert a new row above row 1.				
25	In cell A1 enter the text Currency converter				
26	Format this text as a black 24 point sans-serif font.				
27	Merge cells A1 to D1 so they become a single cell with centre aligned text.				
28	In cell A4 enter a function to look up the name of the region using the code entered in cell A3.				
29	In cell A5 enter a formula to calculate the price from Maldivian rufiyaa into the new regional currency.				
30	Edit the formula in cell A5 so that it rounds up the value to the next whole number.				
31	On the right in the header add your name, Centre number and candidate number.				
32	Save and print the spreadsheet showing formulae. Make sure:				
	<ul> <li>it is in landscape orientation</li> <li>the row and column headings are displayed</li> <li>the printout is only one page wide</li> <li>the contents of all cells are fully visible.</li> </ul>				
33	Print the spreadsheet showing the values. Make sure the:				
	<ul><li>printout fits on a single portrait page</li><li>contents of all cells are fully visible.</li></ul>				
34	Enter new data into cells A2 and A3 so that the:				
	<ul> <li>new price is 1500 rufiyaa</li> <li>new currency is rupees</li> </ul>				
35	Print the spreadsheet showing the values.				
36	Save and print your evidence document.
